

# JOURNAL BUNGALOWS

ISSUED BY THE LADIES' HOME JOURNAL  
INDEPENDENCE SQUARE, PHILADELPHIA, PENNSYLVANIA

*"He who deliberately builds an ugly house  
condemns himself as a poor citizen, while  
he who builds a beautiful house proves  
himself a good citizen, for his personal  
effort contributes to the public welfare."*

THE cost which is noted in connection with each bungalow in this book represents the actual price for which that particular bungalow was built in its locality. These costs, however, can only be considered approximate, owing to the fact that the price of building materials and labor varies to such a great extent in every part of our country.

---

WORKING drawings, including all the elevations and details, and the specifications are procurable for practically all of these bungalows, and we shall be glad to give you the architect's address and the price he is charging for these upon request.
